Project: PrYSM website: Prototype proposal, Database Creation, Specification, and Handoff

Static HTML/CSS/JS prototype. Forms demonstrate empty, error, success, and offline states in the browser. No production authentication and no live CRM writes. This invoice is for a production launch after prototype approval and after the production database is deployed.

Services (labor)

Description	Hours	Rate	Amount
Engineering — Public pages; registration and login; gated Shift Glass events; channel opt-ins; brand system; interaction states in the proposal (empty, error, success, offline).	22.0	\$150.00	\$3,300.00
Database construction — Specified data contract for the prototype: webhook field map, form payloads, consent timestamp rules, and Airtable/EveryAction contract. Production database to be deployed.	5.0	\$150.00	\$750.00
Onboarding — Walkthrough of the proposal hub, scope, and brief so staff can review the prototype.	3.0	\$150.00	\$450.00
Support — Close-out already reflected in the files: state coverage, safety constraints, and revisions in the current proposal.	2.0	\$150.00	\$300.00

Materials (billed separately from labor)

Description	Amount
Development tooling (Cursor)	\$200.00

Labor subtotal (32.0 hours)	\$4,800.00
Materials subtotal	\$200.00
Amount due	\$5,000.00

Terms: Net 30.
This invoice covers the PrYSM website proposal package (prototype, specification, and handoff).
Payment method: _____
Note: “Database construction” on this invoice is the specified webhook field map, payload examples, and consent timestamp rules.
Production database to be deployed.
